

WORDPRESS BLOG DESIGN

\$300

My Wordpress Blog Design services are simple & affordable with a quick end result. It takes me approximately **three days** to redesign my clients blogs and website from beginning to end (time frame may vary depending on client needs).

I do not provide custom web design services. I work with pre-made Wordpress themes. Services include:

- Theme Installation
- Set Up
- Configurations
- Customization (colors, fonts, image placements)
- Custom Blog Banner
- Custom Homepage Graphics
- 2 week blog maintenance period (beginning day after initial set up completion)

I work with themes specifically designed by Wordpress Theme Designer, Hello You Designs. Themes must be purchased separately. **You DO NOT need to purchase the required Genesis Framework.**
